iCelebrate Week: Honoring Our Team Members

From September 14-20, we came together across Vesta hotels to celebrate **iCelebrate Week**—a week dedicated to recognizing the hard work, dedication, and accomplishments of our incredible team members.

Each day brought something new to enjoy and a chance to say “thank you.” From donuts, chips, and ice cream sundaes to big team luncheons - there was something for everyone to savor. Hotels also got creative with their own celebrations, adding personal touches like mini massages from professional therapists, homemade tamales, and more.

But beyond the food and fun, iCelebrate Week was about connection. It reminded us how much we value our people and the unique contributions each team member brings to Vesta. Thank you to everyone who makes our hotels thrive every day—you are truly at the heart of our success!

Safety Tip of the Month: PPE Quick Guide

Personal Protective Equipment (PPE) is the last line of defense when hazards can't be controlled otherwise. OSHA requires employers to provide PPE at no cost, ensure it fits properly, and train employees in its use.

- Eyes/Face: Safety glasses, goggles, or shields protect from particles, chemicals, and radiation.
- Head: Hard hats guard against falling objects and electrical risks.
- Hearing: Earplugs or earmuffs help when noise exceeds safe levels.
- Feet/Legs: Safety shoes or boots protect from heavy objects, punctures, and electrical hazards.
- Hands/Arms: Gloves prevent cuts, burns, chemical contact, and electrical shock.
- Body: Coveralls, aprons, or suits shield against heat, chemicals, and radiation.
- Respiratory: Masks and respirators protect from dust, fumes, gases, and oxygen-deficient areas.

Always select PPE suited to the hazard—and remember, the right gear protects you head to toe!
